- Food hygiene training

**The poorest rating above determines the SmileSafe rating**

☺ High standards of food hygiene

☹ Unsatisfactory standards, some major problems

☺ Satisfactory standards, some issues raised

☹ Highly unsatisfactory standards, enforcement action likely

## Summary of Inspection Findings

Food hygiene practices were very good. Food was stored and handled hygienically. All refrigeration equipment was operating correctly and keeping foods at safe temperatures. Food handlers wore appropriate protective clothing and exhibited good personal hygiene standards.

The kitchen was well equipped to commercial standards. Cleanliness was very good. Food safety procedures had been developed and put in place. Food safety checks were carried out and recorded daily. The premises have a good track record of compliance with legal requirements. Food handlers have all received appropriate training in food hygiene.
